## Work Experience

### Bank of Montreal

June 2018 — December 2018

UI Front End Developer

- Developed the UI design for a client-facing wealth management product
- Transformed designs into functional web pages, using HTML, CSS/Sass and JavaScript/jQuery
- Worked closely with the design and UX leads to guide mobile responsive direction
- Assisted with creating Angular 6 UI components for the BMO design component library

### Freedom Mobile

October 2017 — May 2018

Front End Developer and Web Designer

- Developed promotional landing pages
- Participated in QA/UAT processes for the Freedom Mobile website
- Offered suggestions to improve website's functionality and user experience

### Jam Direct, Inc.

October 2016 — August 2017

Front End Developer

- Converted PSD documents into functional HTML emails
- Strategized solutions for mobile responsive design
- Took part in QA processes; conducted tests using software and mobile devices

### The Print Market

January 2016 — June 2016

Graphic Designer (Print)

- Designed marketing materials, such as feature sheets, books, direct mail cards and business cards for real estate agents
- Compiled data and produced monthly newsletters for clients to display house listings, relevant articles, and TREB data
- Created gallery websites to showcase a house listing

### UNOapp

October 2014 — November 2015

Graphic Designer (Digital)

- Designed and coded digital menu layouts
- Updated and built client websites using proprietary software
- Created monthly digital posters as marketing tools
